

1. Talk on 'Water Security of Himalayan Region under Warm Climate by Dr. A V Kulkarni

Dr. Anil Vishnupant Kulkarni is a Distinguished Scientist at the Divecha Centre for Climate Change, Centre for Atmospheric and Oceanic Sciences, Indian Institute of Sciences, Bangalore. Dr. Kulkarni has developed many remote sensing-based methods and models to understand the Himalayan cryosphere, which is used to provide a better estimate of glacier-stored water. A talk was organised on 4th August at Space Applications Centre under the overall guidance of **Dr I M Bahuguna, Deputy Director- EPSA, Dr Parul D Patel Chairperson AKAM & Dr. Dhani Ram Rajak, Alt Chairman AKAM.**

On 4th August, 2022, Dr. Kulkarni delivered a talk on the same and enlightened the audience with his experiences in this field of study. **Ms. Richa Srivastava, Member AKAM** delivered the formal vote of thanks and **Dr. C P Singh, Member AKAM** moderated the entire event.
