

## Dr. C. V. Raman Award to Shri Dipak Pandya, VSSE

Vikram Sarabhai Space Exhibition proudly informs that Shri Dipak Pandya had been awarded the Dr. C. V. Raman Award for the Year 2017, by the Raman Science & Technology Foundation, to the nation and his dedication towards popularizing space science. This award was presented to him and the National Science Techno Fair at Pilvai (Gujarat) on July 15, 2017.

The Vikram Sarabhai Space Exhibition is holding its mobile exhibition at various places in India. In the past couple of years since the opening of the renovated exhibition, we have concentrated mainly on remote / village areas where there are no science club/centers where they can get awareness about space science and the applications of space/satellite technologies.

Shri Dipak Pandya has played significant role for most of these Exhibitions, especially those are held in interior area/towns of Gujarat and other states. He has put significant efforts in interacting with the hosts of exhibitions to set up and arrange a perfect exhibition.
